FOR IMMEDIATE RELEASE

Local Artist Selected to be Featured in an Exclusive On-Line Art Show

[City, State, Month Date] Local artist, (Name of artist), has been creating art in his/her basement/studio for the past X years and was recently selected to be featured as one of only thirty-five artists making waves in the new online art show space hosted by Artburst Studios. From February 23-25, 2023 (artist) will be showcasing original work that can be purchased through this unique online platform.

While artists typically work with local galleries or public venues to sell their art, many have been challenged in recent years to get the same traction post-covid and have been looking for creative ways to get their stories out to a wider audience. Artburst Studios offers unique, fast-paced, online art shows, giving collectors greater access and the ability to learn more about artists and their work.

Artburst Studios was created by three artists based out of Denver, Colorado. They each had their own challenges and have made it their mission to design an experience that allows artists to tell their stories while making solid connections with art lovers. “We’ve worked hard to create a space that serves both artists and art collectors. There are artists you may be familiar with and a number that you’ll be excited to meet,” says Jennifer Steck, one of the Artburst Studios founders. “We are thrilled that (Name of artist) is joining us. We specifically selected him/her because we love his/her incredible work. It’s an honor to have him/her join us in the first of what will be many wonderful shows to come.”

“This feels like a special opportunity for me to share my art with a larger audience. I’m always excited when one of my pieces finds the perfect home and I’m looking forward to seeing where the originals I’m creating specifically for this show end up.” (Use this quote or create one of your own that sounds more like you),” said NAME of ARTIST.

The show opens at 4:56pm MST (Denver time) on February 23rd. There will be art collectors ready and waiting to purchase unique and amazing pieces as soon as the virtual curtain opens. This is a time when you won’t want to be late. Subscribe on my website ([artist’s website](#)) or at www.artburststudios.com for the latest updates. Artburst Studios is offering a free

downloadable E-Book on “Hosting an Art Filled Gathering”, if you’d like to get a head start on creating your own art and inspiring others to get creative, too.

###

NOTE: Artists include a headshot of you, a bio of you, and at least two photos of your recent work (does not need to be from this show). These may get printed with your article.
